

## 2020 EOP Health and Safety:

This plan includes strategies to reduce the spread of a wide variety of infectious diseases (COVID-19, influenza, etc.). Guidelines are in conjunction with the CDC and local health agencies. All staff will be trained around safe practices such as cleaning/disinfecting effectively as well as other healthy hygiene practices.

### **Health and Safety:**

- Screening:
  - Camp staff and children will be screened daily on arrival to the program.
  - Anyone with COVID-19 symptoms, reporting close contact with someone suspected or confirmed with COVID-19 or those reporting travel risk factors will not be allowed into the program.
  - Symptomatic individuals will be instructed to contact their health care provider to be tested for COVID-19 and self-isolate at home. They will not be able to return to the program until at least 10 days have passed since symptoms first appeared AND at least 3 days (72 hours) have passed since recovery and being fever-free.
  - Asymptomatic individuals reporting close contact with someone suspected or confirmed with COVID-19, or who report one of the traveled-related risk factors should self-quarantine for 14 days from their last exposure or return from travel.
- Face Coverings
  - All staff will be required to wear a face covering over their nose and mouth as much as possible when social distancing is not possible.
  - All adults dropping children off at camp will be required to wear a face covering while the screening process takes place.
- Healthy hygiene:
  - Staff and children will practice frequent hand hygiene.
  - Children will be required to wash their hands when arriving to the program, before and after snack, after outside time, before and after going to the bathroom, after handling any bodily fluid (sneezing, coughing, etc.) and prior to leaving for the day.
  - Hand washing stations will be accessible at camp. If soap and water are not available, hand sanitizers with a concentration of at least 60% alcohol will be available.
  - Staff and children will take everyday safety precautions to prevent the spread of illness such as washing their hands frequently with soap and water and covering coughs and sneezes.

- Signs will be posted throughout the camp regarding healthy hygiene practices to help reduce the spread of germs.
- Cleaning/disinfecting:
  - Staff and custodians will routinely clean, sanitize and disinfect frequently touched surfaces and objects including toys and games, door handles, light switches, countertops, etc. Tables will be wiped down before and after each use. Staff will wear gloves when cleaning.
  - If a child becomes sick at camp, they will be isolated from the other children, they will put on a face covering and the parent/legal guardian will need to pick up immediately.
  - We will clean and disinfect all surfaces in the isolated room/area as well as all areas used by the sick child or staff after the sick child/staff has gone home or up to 24 hours if possible.
  - If there is a confirmed/potential COVID-19 case at camp, parents will be notified through email.
- Social distancing:
  - We will remain outside as much as possible to allow for social distancing. Indoor activities will be limited.
  - Each camper will have his or her own bin of art supplies for the day.
  - Games and activities will be designed to allow for social distancing and camper safety.
  - Snack and lunch will take place outside unless weather conditions send us indoors. Campers will be seated so that they are at least 6 feet apart from others whenever possible.
  - Campers will need to bring their own snacks, lunch and water bottles. Food and drink will not be shared.
- Drop off/Pick up:
  - To ensure the health and safety of our staff and campers, parents will be asked to stay in their cars during drop off and pick up procedures.
  - A staff member will screen each child while in their car. Once they are cleared, we will escort them to an area where they will put their belongings for the day and head over to the camp area.
  - For pick up, parents will remain in their car. A staff member will come over to your car, check ID, and then bring your child to you.
